STEEL BARGES CHARGED WITH ELECTRICITY FROM HIGH TENSION

Steamboat Crew Have Peculiar and Exciting Incident During Storm

BARGE DAMAGED BY CURRENT

As an aftermath of the storm which passed over this section of the valley on Sunday night comes a report from Lock No. 4 of a very peculiar and a very rare incident which happened at the bridge above the dam.

It appears that during the storm a high tension line of the West Penn Electric company which crosses the Charleroi-Monessen bridge was broken by the high wind which prevailed at that time and the loose ends hung down unnoticed over the channel span.

The steamer W. C. Clingerman, of the Carnegie Steel line, with six empty barges was passing up through the lock about one o'clock Monday morning, when suddenly the whole tow began to "sparkle" as one of the crew expressed it. It was not long, however, until the cause was discovered, the loose ends of the high tension wire having come in contact with one of the steel barges. The mate, Clark Sheets and James Speakman, who were busy on the tow at the time, protected themselves by standing on the running board of the barge on which they were working. This running board is a heavy oak plank which runs the whole length of the gunwales on the barges. One other member of the crew, who had experience in the mines with electricity, removed his coat and putting it under his feet stood on it while the display was going on, thus saving himself from any harm. Capt. Hagen Hoge, at the wheel at the time, with prompt action and good judgment, directed the engineer to put live steam into the big cylinders, pulled the helm hard down to larboard and soon had the entire tow free from the deadly and highly charged wire.

As it was considerable damage was done to the barge on which the wire played most freely. Eight holes were burned in the side of the barge, through steel plates 2-8 of an inch thick, rendering the craft temporarily unfit for service. It was left at the Ada mine and will have to go to the docks for repairs before it can be placed back in the trade.

The electrical display was witnessed by the employees at the lock and as soon as possible Lockmaster Sweeney notified the West Penn Company of the dangerous condition and the wire was removed before any further damage was done to passing steamers.

The incident is regarded as one of the most peculiar ever happening to a steamer and tow, and the results might have been more serious had it not been for the coolness displayed by members of the crew. Those on the steamer deck felt slight shocks from the current as it passed

BATHING BEACH IS CLOSED FOR PRESENT

The Charleroi bathing beach is closed until there is a lower stage of water in the Monongahela. The rise of the past few days has made it impossible to utilize the facilities to any advantage.

HEAVY REGISTRATION IN FIRST-PRECINCT

In the first pre-met of Charleroi reports a total registration of 523 voters, divided politically as follows: Republicans 472, Democrats 47, Socialists 2 and Prohibitionists 2.

ACCUSED ARE HELD FOR CRIMINAL COURT

Roy Kearns of Fayette City made an information on Wednesday afternoon, before Justice of the Peace Whitehead, against Thomas Jennings and Thomas Allen of Monongahela, charging them with stealing his automobile. Mr. Kearns lost his machine one night while attending a carnival at the Charleroi ball park. The car had been left on Second street, below McKean, and when Kearns returned for it the machine was gone.

A similar information was made at the same time before the same Justice by James R. Devore of Monongahela, who said his car, valued at \$650, had been taken from in front of the Bentley theatre in that town by the accused. They were held in \$2,000 bail for their appearance at court by Justice Whitehead.

A resident of Carnegie also wished to enter an information, but as his car was stolen in Allegheny county, he was referred to the officers of the law there to take the case. The owner of the car stolen at Kinneywood Park was in Charleroi on Wednesday and identified his car. He had made an information against the two men before Alderman Riley in Pittsburgh.

Unless the accused can secure bail they will be taken to Washington and placed in jail pending the August term of criminal court.

SALE OF HALF PER CENT BEER PROHIBITED

United States District Attorney Crawford of Pittsburgh, has announced to all liquor dealers and brewers that the sale of all kinds of beer, regardless of alcoholic strength will be prohibited during the wartime prohibition. This stand on the part of the United States official means that many hotel bars which have heretofore been selling near beers will have to close their places of business, or suffer prosecution.

from the barge to the boat, but otherwise they were not disturbed by the fluid.

Expect Normal Production of Coal Within Next Six Weeks

Declaration by President James A. Farrell of the United States Steel Corporation on his recent visit to this district that the steel industry had improved 25 per cent in the preceding three weeks and his prediction of continued steady improvement in the industry seems to be borne out by reports showing increased industrial activity throughout the Fayette county coal field. Particularly noticeable during the past ten days has been the increased production of by-product coke and the operation of quite a few of the coal plants in the county on a six-day per week basis. Best available figures would indicate that the coke production of the Frick company in the region is approximately 65 per cent and the output of coal in the neighborhood of 75 per cent. Production of the independent operators, duct coke ovens. The entire demand is declared by those in closest touch with the situation will approximate domestic demand for steel.

KNIGHTS HOLD A SUCCESSFUL OUTING

The picnic and outing held at Eldora Park Wednesday afternoon and evening, under the auspices of Charleroi Council No. 956, K. of C., Monessen Council No. 954 and Donora Council No. 1941, was largely attended and a great success. A feature of the outing was the athletic events, the first of which was a marathon race from Seventh street, Charleroi, to the park. The runners lined up at Seventh street, the course being up Fallowfield to Fourth, to McKean and thence to the park. The race was won by Edward Schramko, of the Charleroi Lyceum in 38 minutes, with James Lincoln Highway, the lower parts of the Organ of the Charleroi K. of C. second in 40 minutes, and Albert Schorer, third in 45 minutes. There were 14 starters, of whom 12 finished.

At the park the two of war between teams from the three Councils was won by Charleroi. Donora beat Monessen in 20 seconds, while Charleroi beat Donora in five.

The open 100-yard dash for Knights was won by John G. Schafer, of Charleroi, with H. Carney of Monessen, second.

Mrs. Mary Paxton, wife of John Paxton, died at her home in California, Wednesday morning July 16th. Funeral services will be held Friday afternoon at 2 o'clock, with interment in Highland cemetery. She was aged 85 years and had been ailing for some time. Four sons survive, Jcs., Samuel and Cousins of California and dancy with no prospect of the end in George W. Paxton of Lock No. 4, sight.

GROUNDHOGS EAT THE WHITEWASH

The mystery surrounding the disappearance of whitewash from the bottoms of telegraph and telephone poles along State Highway routes in western and northeastern Pennsylvania has been solved. In western Pennsylvania groundhogs are the guilty creatures; in northeastern Pennsylvania, the porcupines are the whitewash destroyers.

For some time Highway department inspectors have been at a loss to understand why whitewash has been disappearing from the bottom of poles to a height of 18 inches or two feet. In Westmoreland County, on the Lincoln Highway, the lower parts of poles have been stripped for several miles. An inspector last week discovered the reason. He was "rolling" down an incline with his machine coating. So silent was his approach that he was within 30 feet of two groundhogs before they became frightened—and ceased their attacks on the whitewash. The two were at work on the same pole. With their front claws they scraped off quantities of the whitewash. Then they ate it. Salt is used in making whitewash by the Highway department. Groundhogs consider salt a rare delicacy. So do the northeastern Pennsylvania porcupines. As a result the Highway Department must re-whitewash a large number of poles.

The high cost of living shows no sign of getting on the toboggan. The price of hogs is still on the ascent. Samuel and Cousins of California and dancy with no prospect of the end in George W. Paxton of Lock No. 4, sight.

BOARD ELECTS TWO ADDITIONAL INSTRUCTORS FOR HIGH SCHOOL

REQUEST FARMERS TO KILL OFF ALL RATS

"The greatest wheat crop ever produced in Pennsylvania is now being harvested and grain elevators and bins will soon become veritable treasure places into which rats and mice will break," says a bulletin issued by the state department of agriculture warning farmers to start killing off rats. Secretary Rasmussen has issued a statement that farmers are not counting the loss they suffer from rats annually, and that the rodents should be exterminated now.

Both Gentlemen Come Highly Recommended in Their Departments

STILL NEED 3 MORE TEACHERS

At a meeting of the school board of the Charleroi school district, held Tuesday evening, two additional teachers were elected to positions in the local High. Prof. T. P. Miller of Kane's Mills, Jefferson county, was elected Science teacher to fill the vacancy caused by the departure of Prof. McCormick who goes as principal of the public schools of California. Prof. Edward Brady, of Donora, had been elected to the position, but the Donora Board made it interesting enough for him to remain in that town.

Prof. Miller comes highly recommended. He is a graduate of Grove City College, and has been a teacher in high schools for the past eight years. Last year he was a member of the Franklin High school faculty and also was coach to the athletic teams and gave Franklin High the best teams it ever had. However, he will not act as coach here, that position having been filled by the election of Prof. J. M. Snyder, from Kane, Pa.

The Board also elected Prof. M. T. VanOstrand of Bowling Green, Ky., to the position made vacant by the resignation of Prof. Proctor in the commercial department. Prof. VanOstrand is said to be an expert penman and at present is an instructor in penmanship in the Bowling Green Business College. He also comes highly recommended. Both of these gentlemen will come to Charleroi some time the latter part of August.

The schools are still in need of one commercial teacher for the high school faculty, and two teachers for the grades. These Prof. Pollock hopes to secure shortly.

The Board at this meeting accepted the resignation of Miss Blanche Allison, who has been the competent school secretary for the past year. She goes with Pfeiffer's as bookkeeper, taking the place made vacant by Miss Hazel Horne. Miss Jean Eagey was elected to succeed Miss Allison. The contract for school supplies was awarded to Kurtz Brothers of Clearfield, Pa., they being the lowest bidders.

MAY ELECT PRINCIPAL THIS AFTERNOON

The Board of Trustees of the Southwestern State Normal School will meet at California this afternoon at which time it is expected the question of electing a successor to Dr. Herzog will be disposed of.

Strictly Fresh county eggs and butter at Watterson's Grocery 605 Fallowfield avenue.

COUNTIES ARE NOW CLASSIFIED BY LAW

Counties in Pennsylvania are divided into classes according to population along the lines of the cities of the State, under terms of a bill just approved by Governor Sprout. The bill, which originated in the House, states that counties have been classified and that hereafter laws may be passed applicable to classes of all counties in general.

The new law makes eight classes, with Philadelphia in the first class, and Allegheny in the second, owing to their population. The third class compose counties with populations from 250,000 to 800,000, which takes in Luzerne and Lackawanna; fourth class all counties from 150,000 to 250,000; fifth class from 100,000 to 150,000, in which class Washington county is at present assigned. However the next census will likely place this county in the fourth class. Other classes are formed of the counties with less than 100,000 population.

SADLER ASKS FAVOR OF MOTORISTS

Highway Commissioner Lewis S. Sadler does not believe it should be necessary for either the Department or police officers of the state to proceed against automobilists and others who, after blocking their vehicles on hill roads with large stones or pieces of timber, drive on and leave these obstructions on the highway.

"Motorists and others," said Commissioner Sadler, "who obstruct highways in this manner probably do so thoughtlessly. The practice is a dangerous one, however, and the Department is receiving many complaints because of it. It is a very easy matter to remove rocks or pieces of wood used to block cars or wagons on hills. Drivers of all vehicles as a matter of ordinary courtesy to other road users should remove these obstructions. The Highway Department asks that all users of highways so conduct themselves as to minimize the danger of accident."

AS TO MEXICO.

There is a good chance the League of Nations is going to be brought home to us pretty speedily if we reflect that Great Britain is not in the habit of permitting foreign nations to confiscate the property of its citizens. And we have no reason to doubt that this process has started in Mexico, says the Chicago Tribune.

By an administration promise to the other powers we hold a sort of defacto trusteeship over Mexico. Other nations agreed to keep hands off if we would judiciously lay them on. They have kept off and so have we. The result, as advertised, is beginning to appear.

Confiscation of oil properties in Mexico was forecast long ago. Perhaps many thought the threat was a bugaboo; would never be made good. So also a great many thought, Americans would not be murdered.

The killing of Americans has incessantly continued and the Mexicans have gained courage and multiplied their zeal because they have found they can do it without much penalty. The confiscation of oil properties is not a prominent departure from the program of insolence but thoroughly in keeping with the trend of Carranza policy.

Perhaps Carranza may be personally indisposed to kill Americans, and confiscate property; but many things become expedient to the tottering sovereign; so where he once was high in public esteem by the performance of minor mischiefs it now becomes necessary to contrive better and more spectacular chicaneries to preserve support and entice public sympathy.

The confiscation of the British oil property is Carranza logic; devised to show the Mexicans that Carranza is their all-powerful lord and that he has no fear of great foreign powers, but rather outs them to the advantage of his people.

We shall see the need of the Monroe doctrine; of printing it in bold letters in the covenant of the League of Nations. But we shall see more; the need for maintaining that Monroe Doctrine by protecting the interests that are guaranteed by it. It is our business as trustees under the doctrine to see that foreign nations do not impress their will on this continent, which they certainly and with justice, will do if we continue to let Mexico be the roughhouse of the hemisphere.

Great Britain has a distinct and direct interest in Mexico. So have we. But if we don't protect our own interest it doesn't follow that Britain won't. Britain will. Therefore if we delegate the power to establish peace in Mexico, good night, Monroe Doctrine.

THE HIGH COST OF LIVING

Charlottesville housekeepers were much interested in a list of prices which appeared in the Pittsburgh papers on Wednesday morning, and which showed what the city of Pittsburgh had to pay for foodstuffs at wholesale. The prices quoted were on first grade of every article purchased, the city eliminating all seconds, and accepting only those supplies which are rated first grade.

This rating referred particularly to beef cattle, for which it pays for at the rate of \$22.97 per 100 pounds for hindquarters and forequarters at \$12.43 per 100 pounds. Mutton is \$25 per 100 pounds, while hams are sold at 39 1-2 cents per pound. This same ham is sold to the retail trade at 60 and 25 cents a pound. The city pays \$10.00 per 100 pounds for lard while the retail trade is bought at very different figures; evaporated peaches at 10 cents a pound, prunes (70-80) at 10 cents per pound, coffee, finest Rio, at 10 cents a pound, navy beans 7 3-4 cents per pound, barley 4 cents, split peas 7 cents, Lima beans 9 1-2 cents per pound. Fruits are in the same proportion.

These figures give the people an idea at what prices foodstuffs can be purchased in wholesale lots, but the city retailers claim they are not making any money and are not responsible for the high retail prices. However, the authorities are going

to investigate conditions at the city markets in an effort to ascertain why such high retail figures prevail, and particularly when market sales are low by the city are easier to get a dollar.

The general phone may get wonderful kind of information of the situation in a thorough way.

ELKS POINT THE WAY

The Elks, a purely American organization, has a roster of 64,350 in the military service and roll of 1,007 killed in action. Its national convention in Atlantic City passed patriotic resolutions and otherwise evidenced its Americanism, but the best words spoken were those of the order's newly elected head urging members not to quibble nor delay action over thinly veiled distinctions between anarchists and Bolshevism, but promptly to use all energy in ridding their several communities of every brand of Red which particular attention to parlor Bolshevism. Sound talk—New York Sun.

President Wilson vetoed the Agricultural Appropriation bill, thereby saving the daylight saving law, which was passed early in 1918. Opposition to this measure came principally from the agricultural districts, where it was claimed the regulation worked hardship instead of a benefit. Farm labor insisting on eight hours a day, quit at 4 o'clock in the afternoon, just that time when harvesting is at its best. Other features of farm work are likewise made more expensive by reason of this law, it is claimed, which caused the farming element to protest vigorously against it and ask for its repeal. It was noticed that the repeal of the measure received its strongest support from agricultural districts.

The people of the United States are going to learn a great deal about Shantung, China, during the next few months. This province of the once Chinese empire was turned over by the peace conference to Japan. It was formerly held by Germany, whom Japan ousted shortly after the opening of the world war. Now Japan is awarded Germany's holdings, which include the government of thirty-six millions of people. This phase of the peace treaty, now before the Senate, is going to receive the most earnest consideration of our statesmen, and its disposition will have an important bearing on the approval of the treaty.

So far as the Pittsburgh district is concerned 2.75 beer is a thing of the past, at least during the war-time prohibition. The decision of Judge Thomson in the United States Court at Pittsburgh, refusing the demurrer of the brewers, makes it incumbent on them to prove that they have not violated the law regulating the sale of intoxicating liquors. The case will come up for trial in November, and in the interim the ban will be placed on the 2.75 product. Getting over down to less than one-half of one per cent will make awfully thin drinking to those who want a little "snap" in their liquids.

Zeppelin air service between Hamburg and the United States is promised in an advance notice from Germany. The promoters of the line premise to carry passengers, freight, and mail and to maintain a regular schedule. The big air ships will reach as far as Chicago in the interior of this country, and bookings may be made after the 18th of September, all of which goes to show that the knowledge gained during the war in the way of sailing the zeppelins or the "blimps" will be utilized for peaceful pursuits.

Lieutenant Quentin Roosevelt, son of former President Roosevelt, was killed on the 15th of July in aerial combat with a German flyer. He was buried with military honors, and Capt. James Gee, of Monongahela, who was captured the same day by the Germans, saw the burial party while performing the last rites to the memory of this young aviator.

A year makes a great difference. In July, 1918, we were wondering here at home if the Germans were going to get through to Paris. July 1919 the Hun is wondering where he is going to get the wherewith to pay the indemnity imposed upon by the treaty of peace.

If the miners are sincere in asking for a six hour day and should secure such a concession it would mean a much higher price for coal. It is doubtful, however, if the operators will agree to such an agreement.

Dr. Mott Receives D. S. Medal

Dr. Mott recently was decorated with the Distinguished Service Medal by Secretary of War Baker for "especially meritorious and conspicuous service" and "as a tribute to the work of the Y. M. C. A. men and women overseas, and in home training camps during the war." Dr. Mott is General Secretary of the National War Work Council and the International Committee of the Y. M. C. A. As such he has been the active head of the war work of the organization. Secretary Baker, in presenting the order on behalf of General Peyton C. March, Chief of Staff, thanked Dr. Mott for his personal zeal in war work and his able direction of the great war service organization of the Y. M. C. A.

JUST ONE GIRL RAN SMALLEST "Y" CANTEN.

The smallest Y. M. C. A. canteen in the world is a portly one, which Miss Florence Sullivan picks up every morning and carries to the Columbia Club in

FLORENCE SULLIVAN.

Blymouth, England. It is just a little basket, this miniature canteen, but it holds many of the things that a real life-size hut contains, sweets and tobacco, a spool of thread for those uniform buttons that keep pulling off, and a dozen other little comforts that are dear to the heart of a Yank.

The Sullivan smile that presides over the basket, however, is the most popular commodity at this canteen, and this smile will bear testimony to its efficacy as a gloom-chaser.

ARMY CHAPLAIN COMBINED PREACHING AND BOXING

Boxing, as a side line to the ministry, is a profession that has found very well in his job as chaplain in the United States Army. Blackman was a parson before the war, in a Kansas church, and became a chaplain in 1917, attached to the 130th Field Artillery. But before that he had been a boxing instructor,

EARL A. BLACKMAN.

and now as an active champion of the Y. M. C. A.'s athletic program for the "Fighting Chaplain." Every day after the he demonstrates his enthusiasm for the sport by a little bout with a picked army man, and all the doughboys admit that he is as good in the ring as he is in the pulpit. Blackman encourages athletics and particularly boxing, because he holds that the sport develops a man mentally as well as physically. The "Fighting Chaplain" is extremely popular with the army men abroad, and has been of material assistance to the Y. M. C. A. in its organization of the great athletic program which it provides for the American army.

MILES OF FILM FOR SOLDIERS.

Paris, July 2.—More than 1,000 miles of film were used by the Y. M. C. A. during the month of April, in France and the Rhineland, to provide picture shows for audiences of more than 1,000,000 doughboys a week. More than 1,000 projection machines were required for giving these performances and over 15,000 employees were engaged in the work of the Cinema Department. The Y. M. C. A. commenced its cinema work with the A. E. F. just one year ago the last of April. Then 385 showings per week was a record, and these showings were given principally in the labor battalion camps. But the popularity of the show, and the demand for them was so great that the work had to be extended until now there are more than 4,332 showings per week. The Y. M. C. A. has more than \$6,000,000 worth of film, and a total of more than 5,000,000 doughboys.

PRINCESS AND DOUGHBOYS DANCE TO JAZZ STRAIN.

Aix-les-Bains, France, July.—A "cat" may look at a thing in a way, but a doughboy dance with a princess, too—this is, if he is one of those proverbial lucky people, the American soldiers, who went to war for stern reality's sake, would manage to stum into all kinds of adventures while they were about it. For it actually happened one day not long ago that the American doughboys on leave here suddenly found a Queen in their midst, a real Queen, beautiful and regal, with the loveliest young daughter of a Princess that was ever seen outside a fairy story. Queen Marie of Roumania and the Princess Marie had come to visit the Y. M. C. A. leave area, and to see the Yanks at their business of having a good time.

American jazz music was responsible for the sudden friendship which sprang up between the soldiers and the Princess. For until the band started and the dancing began, everything was just as it might have been expected to be when a Queen was looking on. But the music was the magic for even the royal feet.

PRINCESS MARIE.

and so when the music started Marie began to look wistfully at the dancers and to keep time with her small feet. The Queen saw through it all and suggested to her daughter that she join in with the "Y" girls, and dance with the Americans.

A suggestion was all that was needed, and in a very brief space of time, the pretty little Princess was in the arms of a big Yank, learning American steps to the tune of hobnob, and having "the time of her life." She didn't get to dance with her first partner long, however, for the great dancing game of "steal" was in order, and every single soldier in the room was making the movie rush for the Princess. It was all very breathless and gay and exciting and the doughboys enjoyed it hugely. But better than that, the Princess enjoyed it fully as much and announced that a Y. M. C. A. leave area was as good a place for Princesses as it was for the A. E. F.

"Y" SHOWS NOVEL MOVIES.

Paris, July 1.—Being forced to travel back to America a bad patient, does not keep the American soldier nowadays from enjoying a good movie on board ship. Even in the most serious cases, those who are forced to lie flat on their backs during the entire journey across the Atlantic are enthusiastic movie fans, their opportunity to see Charlie Chaplin, Doug Fairbanks and others, being the result of an adjustable movie machine, which the Y. M. C. A. is using on transports to throw pictures on the ceilings of the sick-bays, or wards, where the worst cases are placed. The ceiling screen movie on shipboard came as the result of experiments that have proven successful in American hospitals in France. The pictures in these cases being thrown on the plain white ceiling without the use of a screen. The machines used are small, and are adjusted at an angle that makes a perfect picture-show possible. The men in the sick-bays are said to be the most appreciative movie-audiences with which the "Y" has dealt in all its work in the A. E. F.

"Y" ACTIVITIES IN RUSSIA.

Soldiers of nine distinct nations which form the armed forces of the Allies in Russia, are being served by the Y. M. C. A. there. These include Americans, Czechs, French, British, Kolchak Russians, Italian "Esercito" Roumanian and Chinese soldiers. The "Y" now has twenty huts and thirty "rolling canteens" in Siberia.

TO REORGANIZE THE NATIONAL GUARD

The Secretary of War has approved of the plans for reorganizing the National Guard of the various states. Pennsylvania has been assigned four regiments of infantry, a squadron of cavalry, a regiment of field artillery, one battalion of engineers, one field signal battalion, one engineer train and one sanitary train complete. If the regiments are placed on a war basis it will mean 250 men to a company and twelve companies to a regiment. The towns heretofore represented in the Guard will reorganize their units as soon as orders are issued from Harrisburg.

Any suit in stock 1-4 off. R. O. Vetter. 34-13

The Controllers of Washington and Fayette counties are advertising for the cleaning and painting of the river bridge at Belle Vernon.

HOW ANY GIRL CAN HAVE PRETTY EYES

No girl or woman is pretty if her eyes are red, strained or have dark rings. Simple witchhazel, camphor, hydrastis, etc., as mixed in Lepoptik eye wash, will brighten the eyes and a week's use will surprise you with its QUICK results. Regular use of Lepoptik keeps the eyes healthy, sparkling and vivacious. The quick change will please you. Dainty aluminum eye cup FREE. Hennings Drug Store, corner Fifth and McKean.

Thousands Exterminated Tape-Worms With Head

Thousands are suffering from tape-worm, but are treated for some other disease without getting any result.

A SURE SIGN of the presence of these parasites is: Passage of round, longitudinal or pumpkin-seedlike particles or other worms. Suggestive signs are: Pale, bloated appearance, dark rings under the eyes, emaciation, constant spitting, coated tongue, loss of appetite, with occasional greediness, indisposition after taking certain food, as: Herring, Oysters, Vinegar etc., even spells of fainting with an empty stomach, appearing indolent, raising of obstruction in the throat, sour stomach, heartburn, pain stomach, head-ache, humming in ears, with fog of having a heavy morning mass in the bowels, cutting pains in intestines, rumbling and wave-like movements, palpitation of the heart, exhaustion, heaviness in limbs, sediment in urine, etc.

In addition thereto, may exist sympathetic disturbances which sometimes assume a grave character, hemorrhages, menstrual irregularities, hysterical fits, choreic convulsions and even epileptic attacks.

MY METHOD EXPELLS THE TAPE-WORM

within one to four hours, without danger, pain, loss of sleep, no detention from home or work.

North Charleroi NEW TYPE BOAT IN COMMISSION

Miss Celine Haggerty has returned from a week's visit with friends in Watersburg.

Mr. and Mrs. Wm. Faulk, Mrs. John Myers and Miss Helen Phillips moved to Washington Sunday evening.

Mr. and Mrs. Everett Harris visited relatives in Fayette City.

Miss Hazel Watson is the guest of Mrs. W. S. Wooster of Brownsville.

Miss Genevieve Nung is the guest of her brother Bert Nung of Library.

Mrs. Clarence Gieb is the guest of her son, Miss Millie McClain of Rices Landing.

Miss Alice Taylor of Denver, Col., is the guest of her aunt, Mrs. J. W. Coyle.

Miss Mary Lambert visited friends in Elizabeth on Sunday.

Mrs. W. S. Wooster and two children have returned to their home in Brownsville after spending two weeks with the former's parents Mr. and Mrs. C. E. Crabb.

Miss Hannah Jarvis of Pittsburgh is the guest of her brother Wm. Jarvis.

Mr. and Mrs. Clyde Flanniken and children have returned from a two weeks visit with relatives in Greensboro and Rices Landing.

Mr. and Mrs. Alphonse Beaumaurage and children and Mrs. Fred Freese and children have returned from a touring trip to Cecil, where they visited friends and relatives.

Mr. and Mrs. Davis Woodward and Mr. and Mrs. William Jarvis have returned from a touring trip to Wooster, Ohio, where they visited Mr. and Mrs. Woodward's parents. They also visited friends in Can Ohio on their return.

Mrs. Robert Staley and daughter Evelyn of Pittsburgh were recent guests of the former's parents Mr. and Mrs. Corbly Baker.

Mrs. Sarah Strosnyder of Waynesburg and Robert Eisminger of Washington were guests of Mr. and Mrs. Earl Eisminger.

Mr. and Mrs. Phelix Henry of Cecil are visiting friends here this week.

George and Earnest Freese and Miss Lillian Weighman of Donora were guests of the former's brother Fred Freese.

Mrs. Harry Maple and children have returned from a few days visit with relatives at Whitley.

Mr. and Mrs. John Ellenberger and son Jack have returned from a month's visit with relatives in Columbia, W. Va. They were accompanied home by Mrs. Ellenberger's brother Earl Amos, who has recently returned from overseas.

Misses Grace and Helen Phillips visited their parents, Mr. and Mrs. Charles Phillips of near Uniontown.

Bartley Burke and Harold Metz have recently returned from overseas.

One lot odd and discontinued styles Boston has decided to strike for higher wages. Writing for Boston papers is popularly supposed to be a form of high art and it is strange to hear of the artists asking for mere wages like ordinary reporters.

So many Germans are offering themselves as subjects to be punished instead of the Kaiser that there appears to be a real systematic "after you" campaign. If there is to be consideration given to all of the self-appointed scapegoats maybe the most of them may escape in the mixup.

One lot felt hats values to \$4 for \$1.50. R. O. Vetter. 34-13

Not only is there no flowing bowl to keep us cool during the hot spell, but next winter, when there is no coal, there will be no flowing bowl to keep us warm when the weather is cold. Those who have deep sorrows to drown must look elsewhere.

Any suit in stock 1-4 off. R. O. Vetter. 34-13

WILL MANAGE TRIP THROUGH GLACIER PARK

Word has been received from E. O. Dorbritz who is spending the summer at Eaton's Ranch, in Wyoming that he will leave today for Glacier Park. Montana as financial manager of Howard Eaton's Horseback trip through that famous resort. There will be about 160 people in the party and they will spend about twenty days camping and horseback riding. On August 6th Mr. Dorbritz will go to Yellowstone National Park as manager of a horseback trip. Twenty days will be spent in the Yellowstone district.

All Palm Beach Suits 1-4 off. R. O. Vetter. 34-13

The new all-steel towboat, "Warren Elsey," built by the Dravo Contracting Company for the Vespa Coal company, made its maiden trip up the Monongahela on Monday last, having a capacity row of empty steel barges, and a consignment of 160,000 bushels of coal on the return trip, handling both with ease and safety, equal to any of the old timers. The Elsey is a new type of boat on the local river. It is 160 feet long, 26 feet beam and 5 1-2 depth of hold. It has compound condensing engines, 14x28x6 feet stroke, capable of developing power sufficient to handle tows of the largest capacity. There are no hog chains used on the boat, steel trusses running fore and aft, giving even greater strength to the hull and economizing room. The boat is said to be entirely fire proof. The shaft is of a new pattern, 36 inches in diameter and hollow. The steering gear is of the improved type, with the signals between pilot house and engine room of the type used on ocean going vessels. Capt. Phil Elsey is in command.

All Straw and Panama Hats 1-2 off. R. O. Vetter. 34-13

MORE SIGNERS ARE REQUIRED ON PETITIONS

Two hundred signers will be required on all petitions for county office, according to word received at the county commissioners' office. Official notice to this effect, however, is not yet on file. Heretofore only 100 signers were necessary for the county offices. For the township offices only ten signers are required.

All petitions for county offices, judges excepted, must be in the office of the county commissioners on or before August 19. The last day on which candidates may withdraw petitions is August 21. The primaries, take place September 16 and the general election will be held November 4th.

STORY OF LOVE AND MYSTERY AT COYLE THEATRE

Miss Anita Stewart in "A Midnight Romance," a story of love and mystery will be presented at the Coyle theatre next Monday and Tuesday. The production was directed by Miss Lois Weber, from a story suggested by Marion Orth.

All Palm Beach suits 1-4 off. R. O. Vetter. 34-13

The newspaper writers' union of Boston has decided to strike for higher wages. Writing for Boston papers is popularly supposed to be a form of high art and it is strange to hear of the artists asking for mere wages like ordinary reporters.

Mends Granite Ware.
The government suggests we economize on kitchen utensils. To mend a hole in granite ware work a piece of putty until perfectly soft, then take a piece of the putty large enough to cover the hole and put one piece on either side of the metal, pressing together inside and out, smoothing down the edges. Place the vessel in a slow oven and bake until the putty is a deep brown. For containing water the vessel will be as good as new.

To Remove Paint.
Paint stains that are not fresh and yet have not entirely hardened can be softened by moistening them with ammonia and sprinkling them with a little turpentine. Roll the fabric up for fifteen or twenty minutes or soak it for several hours if necessary and then wash it with warm water and soap and hang it out in the air to remove the turpentine odor.

A new heat insulating material, composed of a mixture of a special clay and cork, has been discovered by a Norwegian engineer. The clay and cork mixture is burned and the result is the formation of a very light substance that is said to be eminently suitable for all heat insulating purposes.—Indianapolis News.

Last Word in War Vessels.
Superdreadnought is a name given to vessels of the dreadnought type. The displacement is 25,000 tons or more. The speed attained may be twenty-five knots or sea miles (a sea mile is 2,000 yards), and the main battery consists of guns of 13.5 inches caliber or better. A superdreadnought is the last word in naval architecture.

NO HALT IN 'Y' WELFARE WORK

Will Remain With the Soldiers Throughout Demobilization.

EFFORTS OFFICIALLY PRAISED.

Women's Labors for Doughboys Receive Special Mention.

ONE of the brightest pages in the history of the titanic struggle which terminated in the week of the German war machine is that upon which is inscribed the accomplishments of the welfare organizations of the United States. And among these several organizations, which labored to ameliorate war conditions among the fighting forces of America and her allies, none played as important and conspicuous a part and over such a wide stretch of time and as broad a territory as the Young Men's Christian Association.

The "Y" was "on the job" from the very beginning of hostilities in Europe, and it ever amplified its activities as the need for its assistance increased. It was in the mobilization camps, ready for service when the first United States troops were called to the colors. It welcomed the first contingent of American troops to reach the shores of Europe. It remained with the doughboys until the last shot was fired. It still is active wherever our soldiers or sailors are to be found today, and it will continue as a welfare agent among the nation's men at arms until the last of these is mustered out of service. It was in 1914, when war was declared, that the "Y" representatives in Europe began their war service by co-operating with the English authorities in mapping out a plan of welfare work among the soldiers and in the prison camps of the allies and also in Germany. And the work began at that time has been continued without intermission, increasing demands for service usually being anticipated.

But the period for the complete demobilization of the American fighting forces is approaching, and rapidly, and as the time nears when the war activities of the Young Men's Christian Association will no longer be necessary the praise for its work and its accomplishments from those who occupied places of authority and in exceptional positions to observe actual conditions continues to be made public.

Thomas W. Gregory, formerly Attorney-General, who has just returned from France on a mission for the government, in a statement concerning the activities of the "Y," said:

"Recently I have had an opportunity to observe the work being done among the American soldiers abroad to insure their happiness and comfort. I have seen many of the men and women who are devoting their time to the welfare of the soldiers and what steps they are taking to assure their happiness and physical and moral welfare. I have been particularly impressed with the work American women are doing. Now that the incentive of battle is over, the doughboy wants to come home. Our women are doing their best to bring America to him. They attend to his creature comforts. They brighten his up with entertainments, and they dance with him in the 'Y' huts. They are with him in the leave areas where he goes for pleasure and rest. They provide his amusement."

"I left Paris on the morning of March 31st. We not only covered the immediate area of fighting between the German and allied lines, but we went behind both the German and the American lines at various points, observing conditions. We found the First American Army encamped as a general thing behind the old French lines, south of the devastated area, and in most instances rather comfortably situated. We found the 'Y' there. The Third Army was along the Rhine in Germany, and it was generally reported to me as also being comfortably housed. Here also the 'Y' was with them."

"I noted at many other points the huts of the Y. M. C. A. So far as my observation went, the work in every only real home atmosphere in this section of the country. I saw the boys come into the huts about 5 and 6 o'clock, weary and bedraggled. They stood in long lines, and were handed hot coffee and chocolate without charge, and sometimes there also were sandwiches and light refreshments. At all of the huts I found girls, distinctly American, who were doing work of the finest kind. It was perfectly evident that they were enduring hardships. I saw numbers of them trudging through the mud and the ruins of these devastated villages and towns. They were neatly and attractively garbed. They were without exception cheerful in their demeanor, they seemed to be unusually popular with the boys, and yet it was apparent that they were doing the work under very distressing conditions. But these had not lessened their morale, and in so far as I could observe, the work in every instance was being well done. A few days after returning to American it gave me great pleasure to state to the officials of the War Department the splendid work the Y. M. C. A. was doing."

Raymond E. Fosdick, chairman of the Commission on Training Camp Activities, who has made a study of the welfare work done for our fighting men both here and abroad, in a report to the War Department made public recently, discussed the work of the organizations which served with our army on the other side. The report said the Young Men's Christian Association, handling 58 per cent of the war work budget and with 6,000 representatives in France, was by far the largest.

The work of 2,300 young women serving under the Y. M. C. A. with the troops in France "is beyond praise," Mr. Fosdick also stated, the girls being far better adapted to the task than the average man. Viewed broadly, he declared, "the Y. M. C. A. deserves the appreciation of the army and the continued support of the public."

"After eight months with the troops in France," Mr. Fosdick said, "I am convinced that the average woman worker attached to a 'Y' is worth four or five men workers. Certainly her effect on the morale and spirit of the troops is extraordinary. An honest to God American Girl, as the soldiers call her, can do more to lift the men's hearts than any other person."

Loyal Pennsylvania Chautauquans In Pilgrimage to Save Institution

The famous list of Philadelphia at Chautauquans which will be the meeting place of friends of the institution who are making a pilgrimage to the Assembly Grounds to counsel on Chautauquans' future. Below, from left to right are Bishop John H. Vincent, founder of Chautauquans; Mrs. Ida B. Gole, secretary of the Chautauquans; Dr. Charles E. H. H., a trustee of the institution, and a leading spirit in the campaign to save Chautauquans.

FRIENDS of Chautauquans and organizers, presidents and secretaries of Chautauqua Literary and Scientific Circles from all parts of Pennsylvania have been invited to join in a pilgrimage to Chautauqua the week of July 14 when a special emergency council at the famous Chautauqua Assembly Grounds will discuss a "Saving Chautauqua" program. The council will be in session all day on July 15 and plans will be perfected for placing Chautauqua Institution on a permanently solvent basis.

Among the Chautauquans from Pennsylvania who will attend the council are: Rev. Walter C. Roberts of Mauch Chunk, Mrs. M. B. Moorhead of Moorheadville, Mrs. F. B. Fleming of Oil City, Mrs. Thomas Alexander of Franklin, Mrs. Robert P. Dexter of Coudersport, Miss Gertrude Heasley of Emlenton, Miss Anna C. Schreffler of Lock Haven, Mrs. H. W. Alexander of Monongahela, H. J. Loeb of Punxsutawney, Mrs. Ed Carter of Towanda, Mrs. J. J. McN of Warren and Mrs. I. H. Knox of Waynesburg.

Life in Arrangement.

The girl problem is as serious in Archangel, Russia, as in any big military center, says Miss Elizabeth Boles, director of Y. W. C. A. work in Russia, who is home on a short leave of absence.

"Many girls from central Russia went up to Archangel to spend the summer because of the heat and of the food shortage and when military operations were begun, in the territory surrounding they were unable to go home. They were virtually refugees without clothes, furs and the heavy winter clothing necessary in that northern region. With the coming of the expeditionary force the housing question became a serious one. We Y. W. C. A. secretaries have fairly comfortable quarters—rooms with beds in and lighted with electricity. To be sure there are several of us in each room."

"Many girl clerical and stenographic workers were needed of course at army

headquarters and at the postoffice. This offered employment to some of the refugees and women are doing everything in Archangel even to running trams and trucks. They need organized recreation and that is what we are trying to give them."

Among naval men the mosquito net is known as "the second line" of defense. It is used in protecting the fortifications and harbors along the coast line and, like the insect from which it is named, annoys the enemy in every way, at the same time preventing the possibility of a blockade. In the war against Germany the British navy was augmented by several thousands of small and sometimes very speedy vessels, and to this mosquito fleet, manned chiefly by naval reserve men and fishermen, the admiralty paid tribute for its patient and laborious work in laying and sweeping up mines, chasing submarines and patrolling the home waters.

A MOTHER PROVES THE CLAIMS NOW

Pittsburgh Lady Tells How
Ten-Herbs Restored Her
Son to Good Health

Among the many local people who are endorsing Ten-Herbs, the new herbal stomach remedy, is the mother of one of Pittsburgh's prominent athletic young men.

MRS. JENNIE COOK

Mrs. Jennie Cook, of No. 6218 Butler street, Pittsburgh, who has a wide acquaintance in this city, is glad to tell how her son was relieved, and relates the following interesting story:

"My son, who has been very prominent in all out-door sports, was troubled with his stomach for some time; he could not digest his food, and it fermented in his stomach and caused gas to form; he was badly run down in health and tried many different medicines, which did not do him any good. He was advised to try Ten-Herbs and did so. Now he is feeling fine, and it has relieved his stomach and he is able to digest his food. He has been able to resume his athletic sports again, as well as his daily work and I join with him in endorsing Ten-Herbs."

Ten-Herbs is purely vegetable and is composed of the most beneficial herbs, roots, barks and berries known to science. It is pure and harmless, and can be taken by both old and young with perfect safety, in all of the stomach, liver and kidneys.

Ten-Herbs is sold in Charleroi at Henning's Drug Store.

AT GRADUATION TIME
With school days ended graduates are asking themselves "What of the future?" Practical plans for them NOW mingle in their thoughts with visions seen beyond. These visions need not be unattainable dreams. The "will to win" makes dreams come true. Enthusiasm and determination are the great spurs to success. Young man, young woman—all who are starting out in life today—direct your enthusiasm wisely—make your determination sincere! This institution encourages and cooperates with young people. We advise all to get the save-and-bank habit early and stick to it through life. It pays!

The Pavani Motor Plow.
The Pavani motor plow, now on the market in Italy, has been given thorough tests before government officials, who have pronounced it superior to any other such implement manufactured or offered on the Italian market. It is said to be in every way adapted to the agricultural needs of the country. The Pavani draws from one to six plows, has four motor wheels and a frame movable in every direction, and can not only move over uneven ground but cross ditches and overcome banks "unsurmountable by any other machine." Its minimum turning radius, combined with its low center of gravity, adapt it to all grounds and slopes and make it impossible to overturn under any conditions. The plow is also said to be of great durability and simple construction, so that its upkeep cost is reduced to a minimum.

Rubber "Biscuits."
In southern India a factory at which high-grade rubber is made resembles a dairy, the milky appearance of the latex adding to this illusion, as well as the precautions taken to insure absolute cleanliness. One of two methods of manufacture is generally adopted. If the estate is young and only a few trees are being tapped, the rubber is made in the form of biscuits or sheets. The biscuits are placed on racks in a warm room or an artificial dryer and allowed to remain there until dry. The finished biscuits are pale amber colored and transparent, and for this reason are popular on the market, for their purity and freedom from dirt can be judged by holding them to the light and looking through them.

Be Yourself.
The "just as good" product is usually open to question. Substitutes would have individually and demand of their own if they were as advertised. There is no need of substituting when the thing is all it should be. It can stand on its own merit. Imitators may follow harmlessly, but they can never lead. The human imitator is conscious that he is acting a part. If he isn't conscious of this, he is in need of repairs to his mental apparatus. It's only when a man feels within him the thrill of greatness about to be recognized that he can forge ahead without regard to bystanders. It won't pay to follow as a substitute. Make yourself and the thing you represent a leader and you need make no apology for your existence.

Thousands Exterminated Tape-Worms With Head

Thousands are suffering from tape-worm, but are treated for some other disease without getting any result.

A SURE SIGN of the presence of these parasites is Passage of round, longitudinal or pumpkin-seedlike particles or other worms.

Suggestive signs are: Pale, bloated appearance, dark rings under the eyes, emaciation, continuous itching, coated tongue, loss of appetite, with occasional greenness, indigestion, after taking certain food, as: Herring, Oysters, Vinegar, etc., even spells of fainting with an empty stomach, appearing indolent, raising of obstruction in the throat, sour stomach, heartburn, pain in stomach, head-ache, humming in ears, with feeling of having a heavy moving mass in the body cutting pains in intestines, rumbling and wave-like movements, palpitation of the heart, exhaustion, heaviness in limbs, sediment in urine, etc.

In addition thereto, may beget sympathetic disturbances which sometimes assume a grave character, hemorrhages, menstrual irregularities, hysterical fits, choreic convulsions and even epileptic attacks.

MY METHOD EXPELLS THE TAPE-WORM

within one to four hours, without danger, painlessly, no fasting, no detention from home or work.

STANDARD

SPORT MODEL

A Powerful Car

WHEN you see the new Standard "8" Sport Model with its long, narrow body, its low center of gravity, its long, straight hood which conceals its eight-cylinder, 83 horse-power motor, you get an advance impression of the thrill that awaits you when you let in the clutch for the first time.

83 horse-power with 8-cylinder flexibility, 127-inch wheel base and light weight give to the motorist an idea of the possibilities of this car.

A demonstration will show even greater performance than your expectations.

When you drive in traffic, never shifting a gear or never slipping the clutch, you will realize its unusual flexibility.

It is only when you try the hardest hills on high, without straining the motor in the slightest degree that you can believe its wonderful hill-climbing ability.

The name "Sport Car" describes this new Standard "8". It is a sport car from its trim, supple lines to its snappy, eager performance.

The Standard "8" is built by the sixth largest industrial institution in the world—The Standard Steel Car Company of Pittsburgh—makers of world famous railroad rolling stock.

See this new model and arrange for a demonstration
